STRONGARM Specialist Brackets

PACKAGED FOUR PER CARTON  
LABELLED, SLEEVED

Strongarm - Shelving and Bench brackets. World Class Price, Strength, and Aesthetics. An opportunity for a sole trader or firm to establish Australian wholesale distribution to the trade.

**This is an opportunity for a sole trader or firm to establish Australian wholesale distribution to the trade, of a product that has been proven in New Zealand over the last 31 years.**

Strongarms have become the standard workbench and shelving bracket for 80% of the NZ trade industry. Specified by architects, sold to cabinetmakers and internal fitters throughout the country, who also utilise them for their own projects. They have become recognised for product quality and reliability of supply.

Strongarms, used in the refurbishment of many of the countrys schools, hospitals, fire and ambulance stations etc., have shown a increasing sales pattern during Covid, and also the present downturn. To scale up, our principal range has been for 12 years provided by offshore production. A startup quantity of 932 units is packed and palletized, then warehoused, as shown, ready to ship. Replacement stock will be kept at hand. We fabricate the other specialised brackets locally. This will include base units for the new floating system that have been especially investment cast from hi-tensile steel to our design.

Freight is provided to the nearest port, complete with documentation for GST and internal transport logistics.

Our Catalogue will be available for you to adapt prices, still using the Strongarm name, also, our complete sales structure, and the initial trade advertising experience will be passed on to you. Strongarms really have no parallel anywhere, in price, strength, and aesthetics.
