Fire Services Business for Sale

This business is the go-to in the design, install and ongoing service & maintenance in the fire protection industry. It has earned an outstanding reputation in the industry, and with a strong management team in place it is well positioned to take advantage of the huge growth in Queensland over the next 10 years.

With a workforce of 150 highly trained staff, this business is showing year on year growth.

The owners are willing to stay on for an extended handover to minimise workplace disruptions.

This business would be an ideal corporate acquisition.

The business has been established for over 10 years. It is one of the very few in the industry that offers a complete end to end service involving passive fire protection system installation, ongoing service and maintenance and has a well-earned reputation for being experts in its field.

The ongoing service division of the business has seen massive growth in the past 3 years, and now represents 40% of overall income, with 45 fully equipped service vehicles on the road, the service division shows a customer retention rate of over 90% for new commercial builds.

Selling points of the business:

- Responsible for many successful major projects in Queensland
- Provides wide range of inhouse solutions delivering multiple income streams
- Offers complete end to end service from system design through to manufacture and installation, certification and ongoing service & maintenance
- Trusted and highly respected in the commercial construction industry, with tier 1 & tier 2 builders
- 70% of overall business is repeat
- Large fleet of fully equipped service on the road

This business is ideally positioned to take advantage of the huge growth planned for Queensland up to and beyond the planned Olympic games in 2032

The industry this business operates in is now enshrined in legislation. The Building Code of Australia and especially Queensland requires that only tested and approved protection systems be installed. This business has a complete range of approved products. And its own in-house design and quality assurance program ensures its customers are supplied the highest quality products in the industry.
