Profitable and Highly Reputable Security Solutions System Ref8547

- * Profitable video monitoring and CCTV business
- * Serves construction and property sectors
- * Wireless intruder detection and 24/7 live streaming
- * Recurring revenue from equipment rentals
- * Strong growth potential in booming construction industry

The Business presents an exceptional acquisition opportunity for a buyer looking to enter the thriving security industry. Established in 2013, this business has built a stellar reputation as a trusted provider of cutting-edge security solutions. Backed by high-quality equipment, The Business has the expertise and technology to safeguard a wide range of sites.

The company's offerings revolve around an advanced wireless Intruder Detection System that instantly triggers live video monitoring, audible alerts and strobes when motion is detected. Coupled with their Live Stream CCTV system that enables 24/7 remote monitoring and recording, The Business delivers comprehensive security solutions tailored to each client's unique requirements. The company's commitment to using top-notch equipment ensures reliable performance and client satisfaction.

A key advantage is the company's stable recurring revenue model, with over 95% of income derived from monthly equipment rental fees. This provides an enviable foundation for a new owner to build upon. Furthermore, with the continued strength in the Australian building sector, The Business is ideally positioned to ride this wave of growth. The business is being offered for sale at \$3,600,000, representing an attractive return on investment for the right buyer. Don't miss this chance to acquire a proven, high-tech security business with plenty of runway for expansion.
