Type: **Services-Other**

Framing, Digital Printing and Signage Business [Under Offer Deposit Taken]

[Under Offer Deposit Taken] Here is a special opportunity to own a business that has been manufacturing frames, and printing images and signage for more than five decades. Let's explore what is on offer:

Products and Services: This business prints signs and other images. It also frames many of these images. This is not a retail business. Instead, this business produces large volumes of work for repeat, business clients.

Protected and Growing Niche: The business thrives in a protected niche with very few direct competitors. It services a particular group of customers, enabling it to be known as an expert in its field. This gives the business a distinct competitive advantage.

Customers are long term, repeat customers in a growing sector. As a result, there is plenty of scope for you to expand this business.

The Owner Will Train you: Whilst some experience in the industry would be helpful, it is not essential as the owner is happy to train you in all areas of the business.

Experienced Employees: One of the key strengths of this business is its dedicated team of experienced employees. They are able to operate all equipment, leaving you free to manage the business and communicate with clients.

Well-Equipped: An impressive selection of framing and digital printing equipment is in place on-site. This means that the operation is fully set up to consistently produce quality products.

Strong Financial Performance: For the 2023 financial year, this business achieved a profit to the owner of \$309,000.

This quality business is being offered for sale at \$500,000. Contact us now to find out more.
