Long Established International Publishing, Marketing and Education Business is now reluctantly for sale

For Sale By Expression of Interest (price range - \$320k - \$420k details below)

EOI Closes Monday 25th November 2024 at 5 pm.

Long Established International Publishing, Marketing and Education Business is now reluctantly for sale so that the founder can concentrate on a life-changing opportunity that has just been presented to him.

This is NOT a traditional publishing business but an extremely high-profit model, dealing predominantly with business owners and entrepreneurs looking to stand out and get ahead of their competition.

The key point of difference is that the model involves educating people at a live event and selling them into a highly profitable program. You literally generate 6 figures each event and can hold several events a year, the rest of the time running the business from a home office!

The business has invested significantly in systems, processes, websites, IP, back-end operations, marketing and strategic partnerships.

The business utilises technology and has been heavily systemised with methodologies and distribution partners in place in over 30 countries. This means that the business can be run from anywhere in the world whether it be a home office or dedicated office space.

The ideal purchaser may be another business already in this space or perhaps a family or individual looking for a change in career. It's worth noting, not only do you not need any experience in the industry, but the business can be run from anywhere in the world.

There is stock of promotional products as part of the sale but all products that are offered by the business can be manufactured quickly, cheaply and reliably from templated IP.

The brand has enormous international credibility with an established customer base which will ensure exponential growth without the expense of mass advertising.

Most of the revenue is generated from the sale of proprietary training programs with sales of eBooks, DVD's, Online Home study programs, audio books, outsourced printing and distribution commissions being a few of the income streams the business enjoys.
